FORTY-SEVENTH CONGRESS.

SPECIAL SESSION.

SENATE.

Washington, 27.—The judiciary committee was authorized to sit during recess, and examine into the bankruptcy question.

The authority was continued to the committee on public lands to sit during the recess, and inquire into the condition of the land office.

An invitation to the Senate from Governor Colquitt to attend the cotton exposition, was ordered printed.

After a short executive session, recess was taken to allow committees to consider this morning's nominations.

Upon the reassembling of the Senate the President nominated Chas. Payson, of Massachusetts, for charge d'affaires in Denmark; consuls general—Ferd. Vogeler, Ohio, Frankfort; Simon Wolf, District of Columbia, Cairo; consuls—Silas P. Hubbell, New York, St. Johns, Quebec; Jesse H. Moore, Illinois, Callao; Volney Smith, Arkansas, St. Thomas; Wm. P. Pierce, Georgia, Cienfuegos; register of wills, Hiram J. Ramsdell, District of Columbia. Session lasted till 5.30, and Senate adjourned.

Foreign.

Vienna, 27.—The session of the Austrian delegation opened. Von Schmerling being present. He said the visit of King Humbert was an additional guarantee of the maintenance of peace between Austria and Italy. Referring to the extradition of nihilists he said: Every one is willing to aid government in measures against subversive and devastating conspiracy, but necessarily with a certain degree of moderation. Hohenwart was elected vice-president.

Constantinople, 27.—A steamer was stopped in the Bosphorus having large quantities of dynamite on board for Russia.

Paris, 27.—Gambetta is a candidate for temporary president of the Chamber of Deputies.

Tunis, 27.—The heliograph station will be stationed on Yoghough Hill, thus permitting communication with Tunis, Kairwan and Susan.

London, 27.—Jewish emigration to America is a subject of concern to the Russian government. Another attempt will be made to turn the Jews into farmers and settle them in the provinces of Kherzen and Ekaterinoslar.

The St. Gothard tunnel will be open for traffic on January 1st, 1882.

Berlin, 28.—In compliance with the invitation from Bismarck, the German ambassador to Russia proceeded to Varzin, where the ambassador to France is staying.

Capital Chatter.

Washington, 27.—The value of gold by manufacturers, last fiscal year, was \$10,000,000, more than \$8,000,000 in coin. The consumption of silver was equivalent to \$300,000.

Judge Lawrence decided, in the Guiteau matter, that the court has power to summon witnesses living more than 1,200 miles outside the jurisdiction of the court, and the expenses must be allowed by government.

Contributions to the Garfield memorial hospital to date are only \$557.

Four hundred and twenty thousand ounces of fine silver was purchased for Philadelphia, San Francisco and New Orleans mints.

The commissioner-general of the land office has decided that land containing limestone is subject to entry as mineral land. The secretary of the interior reverses the decision so far as it applies to lands containing limestone and of more value to building and other purposes than for agricultural use.

Panama Canal.

London, 27.—Evening Standard: Few persons are surprised to learn that the United States would regard a European guaranty of neutrality in the Panama Canal unauthorized intrusion. If Colombia should be tampered with by a European guaranty, it would create complications, when a popular vote, one day inevitable, should decree a union with the United States. The President of the board speaking to ship owners thought it possible to create a council on the model of a railway commission, representing whole shipping interests, and great insurance companies. The function of the council being to advise and assist the board of trade.

The Boers.

London, 27.—The ratification convention between England and Transvaal caused general satisfaction in South Africa. It is understood the convention was signed more as a trial than a finality.

The Volksraad have imposed heavy direct taxes and a duty of 13 per cent. on foreign invoices. Much discontent was raised at Pretoria by these measures. Natives are fighting on the frontiers. Transvaal proclaimed neutrality.

Fixing Matters Up.

San Francisco, 27.—Tucson dispatch: It has just been learned that D. C. S. Lord, at the firm of Lord & Williams has not been heard from since his departure from here three weeks ago. The firm had been writing to every important point between New York and Deming to learn of his whereabouts, living or dead. This evening a dispatch was received here saying Lord was very sick at the St. Vincents asylum, St. Louis. Intelligence was given to the public at once, and it explained what appeared to be a mystery. Members of the firm here at once stated that all would be satisfactory, and they felt as though they could pay every dollar of indebtedness, and have ample to continue business. D. O. S. Lord had started to St. Louis to secure payments on account of beef contracts he is carrying for government. Rumors that the Bankley branch of the concern had accepted money after assignment was made, is contradicted. The report that the government funds were short is without foundation, as the inspector has made an examination, and found everything right during the day of two of the heaviest New York firms with whom the house had large transactions, and it would be forthcoming. The sympathy of the community is with the firm, and there is little doubt but that business will be resumed in a few days.

Secretary Folger.

Washington, 27.—The ready and unanimous confirmation of Judge Folger by the Senate, to-day, shows that the nomination inspires general confidence among public men. Rumors connected with Judge Folger that his nomination is a prelude to his transfer to another sphere are said to be, by friends of President Arthur, entirely gratuitous. It is well known that upon the entrance of Garfield to office it was the great desire of New York that one of her partisans should succeed Secretary Sherman. Hon. Levi P. Morton was centered upon and public sentiment in the state was almost unanimously favorable to his appointment; when it was ascertained that his relation to the banking interest were deemed objections by the President, the general desire was that Judge Folger must be appointed. He was sent for by General Garfield and tendered the attorney-generalship, but declined for many reasons, and his appointment as secretary of the treasury was considered a settled matter. For reasons not publicly known, President Garfield decided upon a western man and made a most acceptable selection in the person of secretary Windom. The story that Judge Folger takes the treasury portfolio now under the conditions or understanding that it is but temporary, and that it is with a view to transferring him to the Supreme bench upon the retiring of Justice Hunt, has no foundation whatever.

Land Office Report.

Washington, 27.—The forthcoming annual report of the commissioner of the general land office shows the total sales of public lands in the States of California for the fiscal year ended June 30th, 1881, to have been 577,601 acres. The total receipts for sales of public lands of all kinds in the state amounted to \$346,024; 247,546 acres were disposed of under homestead entries. In Oregon, 255,050 acres were disposed of, the receipts amounting to \$114,128; 55,442 acres were disposed of under homestead entries. In Washington Territory the total sales reached 417,905 acres; receipts, \$206,038, and 227,902 acres were disposed of under homestead entries. In Colorado the total sales were 285,806 acres; total receipts, \$186,070; homestead entries, 115,550 acres. The secretary of the interior has ordered a survey of the eastern boundary of the Maquemas Mexican grant in California. A grant has been issued for Rancho San Diego to Francisco Garcia and others, comprising 116,000 acres in Bunallis County and in New Mexico. This large grant embraces several hot springs said to be of great medicinal value.

Dots.

San Francisco, 27.—Noonday levies an assessment of 25c.

New York, 27.—Midnight: Highest thermometer 60°; lowest 39°.

Atlanta, Ga., 27.—The visiting governors were welcomed to the exposition in the afternoon, Governor Colquitt delivered an address. Several governors responded. The crowd was overwhelming, and the greatest enthusiasm prevailed. The feature of the day was the making of two suits of clothes, one for Governor Colquitt and one for Governor Bigelow, from seed cotton picked at 7 this morning. The suits were worn at the reception in the evening.

The governors leave for home tomorrow.

Ireland.

Dublin, 27.—The arrests include Slack, of Tralee, long in penal servitude for treason and now suspected of treasonable practices.

A Beautiful Variety of PROGRAMME CARDS, suitable for the Ballroom, at HERALD Office.

Turf Notes.

Chicago, 27.—Spirit of the Times says: The victories of "Foxhall" have attracted the attention of the world to the excellence of our soil, pastures and climate for the propagation of thoroughbreds. A partial recognition of this is shown in the recent shipment of a celebrated English stallion and upwards of two dozen brood mares to this country by English parties. Their destination is New Mexico, and one of the gentlemen interested has laid a bet that the Derby winner will be bred at a New Mexico farm in less than six years. Certain English will be represented hereafter at sales of American yearlings, and in Blue Grass regions where "Foxhall" saw the light and his ancestors lived and died.

Indulgent Parents

Who allow their children to eat heartily of high-seasoned food, rich pies, cake, etc., will have to use Hop Bitters to prevent indigestion, sleepless nights, sickness, pain, and perhaps death. No family is safe without them in the house.

HOSTETTER'S

STOMACH BITTERS

Diminished Vigor

Is reimbursed in a great measure, to those troubled with weak kidneys, by a judicious use of Hostetter's Stomach Bitters, which invigorates and stimulates without exciting the urinary organs. In conjunction with its influence upon them, it corrects acidity, improves appetite, and in every way conducive to health and nerve repose. Another marked quality is its control over fever and ague, as its power of purifying it. For sale by Druggists and Dealers generally.
